DC current sensors, dc current transducers, dc current probes

Converting dc current to an isolated 0-100mV, 0-1V, 0-2V, 0-5V, 0-10V, 0-20mA, 4-20mA or 5-25mA

The CTH sensors convert dc current to an isolated voltage output with the ability to track ac waveshapes. The CTH output is a faithful reproduction of the measured current, whether ac or dc. All popular process control voltage and current loop outputs are available. Through hole or split core options mean that connection is non-intrusive and straightforward. The available input range of the CTH sensors is any value from 1A to 40000Adc. Optional dc offset control allows nulling of residual dc current to ensure best use of the output span. The sensor power input is designed to operate over a wide voltage range associated with process control and sub-station auxiliary dc supply systems. Active Hall Effect sensor technology allows measurement from DC-150kHz (depending on the sensor type) along with fast step response. The CTH can be used to provide an instantaneous output for ac currents. Typical applications are found in process control systems like PLC or SCADA, transportation, telecommunications, dc drives, welding and circuit breaker trip coils. For all CTH models, a NIST/NPL (UKAS) traceable calibration certificate and certificate of conformance is supplied.

ISCTH Type 8 ATEX and UL approved for intrinsically safe environments

Model ISCTH type 8 intrinsically safe, models from 100A to 2500A

50mm (2”) round hole Outer: 127mm (5”) x 105mm (4.125”) x 31.75mm (1.25”)
Current ranges: 100A through 2500A

Molded integral cable for intrinsically safe connection

CTH Type 1 through hole

Type 1 current ranges:
1A through 100A
10 x 13.5mm hole
Type 2 current ranges:
0-5A to 0-600A, 25.5mm
Sensor is box or cable mounted.

CTH Type 2 through hole

Type 2 current range 2A - 600A
24-5mm hole via a 90cm (36”) cable. As standard the sensor is supplied connected via cable.

CTH Type 4 and CTH split core Type 8

Hole: 50mm (2”) round hole
Current ranges:
CTH 200A through 2500A
240cm (8”) cable.

CTH Type 4 mini

Type 8 mini split core DC-400Hz

Type 8 mini Hole: 26.5mm (1.125”) round hole.
Current ranges:
100A through 1000A
240cm (8”) cable.

CTH split core Type 6 & Type 7

Hole: 104 (4.09”) x 40 mm (1.57”) Current ranges:
From 200A to 4000A

CTH split core Type 7

Hole: 163mm (6.42”) x 50mm (2”)
Current ranges:
From 600A to 4000A

As standard the sensor is supplied connected via a 90cm (36”) cable.

CTH split core Type 10

CTH Hole size 140mm (5.5”) x 203mm (8”). Current ranges
5000A through 20000A
240cm (8”) cable.

CTH split core Type 11

CTH aperture 330mm (13”) x 330mm (13”). Current ranges:
25000A through 40000A dc
240cm (8”) cable.

CTH Type 9z

Hole: 115mm x 33mm (4.5” x 1.25”) rectangular hole
Current ranges:
CTH 200A through 3000A
240cm (8”) cable.
DC current transducer general specifications

Ranges
Amps peak

Outputs
0-100mV, 0-1V, 0-2V, 0-5V, 0-10V or 0-20mA, 4-20mA or 5-25mA outputs. All CTH outputs can be bipolar / instantaneous. Non-standard outputs are available.

Core type
Through hole or split core clamp type, based on dc Hall Effect sensing

Insulation voltage rating
Type 1, 2 & 5 rated insulation (Galvanic) 2.5kVpk 1 min 50/60Hz. Type 6 & 7 kVpk 1 min 50/60Hz. Type 4 & 8 5kVpk 1 min 50/60Hz

Power input

Accuracy
±0.5% for a non split core, ±1.0% for a split core. Conditions +23°C ±5°C, traceable to UKAS NPL/NIST USA

Working temperature range
Typically -20°C - 65°C (can be extended, check for exact model). Functional temperature range -20°C - 70°C (check for each model). CTH types 1 & 2 are -40°C - 85°C (sensor head only)

Protection
Input fuse, output fuse, power input polarity diode, spike suppression

Frequency response
Depending on sensor type/model. Type 1 & 2 DC-150kHz max. Type 4 mini, 4, 5, 6, 7, 8 mini, 8 maxi, 8, 9 & 9z split cores are DC-10kHz max. Standard HF cut-off filter is 1.5kHz (other values available)

Adjustment
Internal dc offset and gain controls

Mounting
All signal conditioners and sensors have fixing points. Current sensors up to 400A can be mounted on the signal conditioner case or via a cable.

Approvals
CE Marked, IEC1010 cat II & IEC348, UL/CSA rated materials. Self extinguishing materials to UL94V0

Warranty
2 year warranty
